| **Description of previous (and current) experiences in CBC and international projects** | Ministry of culture, Conservation Department Split already participated in international projects. In the last few years this Department has been engaged as the consulting subject and as the institution that led very serious and demanding works concerning restoration of the objects important for cultural heritage. Conservation Department Split participate in project “Balkans 2” concerning Civil Protection, Protected Areas and Cultural Heritage. | |
| **Contribution of the Associate to the project activities** | The contribution of this Department primarily covers the consultative work. The experiance of the employees of the Conservation Department, as well as their excellent knowledge of the territory where this programe is being conducted, made a great contribution to the initial work on the project. The conservators are obliged to supervise the implementation of any project concerning the works on the traditional cultural monuments as well as around them. | |
| **Added value from the partecipation of the Associate** | Added value from the participation of the Ministry of culture, Conservation Department Split will be in their consultative role within this specific field of protection and preservation of cultural heritage. | |
